ABOUT THE ANDREA

With two floors of versatile living space and a range of personalization options, the Andrea floor plan has a lot to offer. The airy main-floor layout showcases a private study, a great room, a kitchen with a center island, and a dining nook. A walk-in pantry and owner's entry are adjacent. Upstairs, the impressive owner's suite includes a walk-in closet and a private bath with dual sinks, a shower and a separate soaking tub. A loft space, two bedrooms, a bath and a laundry complete this home. An exciting variety of personalization options are available, including gourmet and deluxe kitchen features, vaulted or beamed ceilings at the nook, a fourth bedroom and third bath in lieu of the loft, a fifth bedroom and fourth bath in place of the main-floor study and powder room, a walk-in shower at the owner's bath and a covered patio.

*This information is presented for education purposes only. The HERS index for a confirmed rating will be determined by a third-party HERS rater based on data gathered from on-site observations and, if required, testing of rated features for a home as featured, optioned, located, oriented and/or built.

+Standard new home is based on the RESNET® Reference Home definition with a HERS® index of 100 (based on the 2006 International Energy Conservation Code).

++Typical resale home is based on the U.S. Department of Energy definition with a HERS® index of 130.

^RESNET® has developed the HERS® index to indicate the comparative efficiencies of homes. It is no guarantee that energy efficiencies will be achieved.

Floor plans and renderings are conceptual drawings and may vary from actual plans and homes as built. Options and features may not be available on all homes and are subject to change without notice. Actual homes may vary from photos and/or drawings which show upgraded landscaping and may not represent the lowest-priced homes in the community. Features may include optional upgrades and may not be available on all homes. What's a HERS® Index? HERS stands for Home Energy Rating System, a system created by RESNET® to measure home energy efficiency. A Projected HERS index or rating is a computer simulation performed prior to construction by a third-party HERS rater using RESNET-accredited rating software, rated feature and specification data derived from home plans, features and specifications, and other data selected or assumed by the rater. The projected HERS index is approximate and is subject to change without notice. Actual results will vary.
