**ABOUT THE DOMINIC**

The ranch-style Dominic offers three generous bedrooms and a wealth of options. An airy great room with access to the covered patio is at the center of the open layout, adjacent to a dining nook and a large kitchen with a walk-in pantry and a convenient island. A study is a few steps away. The owner's suite boasts a walk-in closet and a private bath that can be optioned with deluxe features or a walk-in shower. You'll also find a laundry, a teen room and a covered patio. Personalize this plan with a fourth bedroom in place of the teen room, deluxe or gourmet kitchen features, a formal dining room with a butler's pantry in lieu of the study, an extended covered patio and multi-slide or center-meet doors at the great room.

\*This information is presented for educational purposes only. The HERS® index for a confirmed rating will be determined by a third-party HERS rater based on data gathered from on-site observations and, if required, testing of rated features for a home as featured, optioned, located, oriented and/or built.

\*\*Standard new home is based on the RESNET® Reference Home definition with a HERS index of 100 (based on the 2006 International Energy Conservation Code).

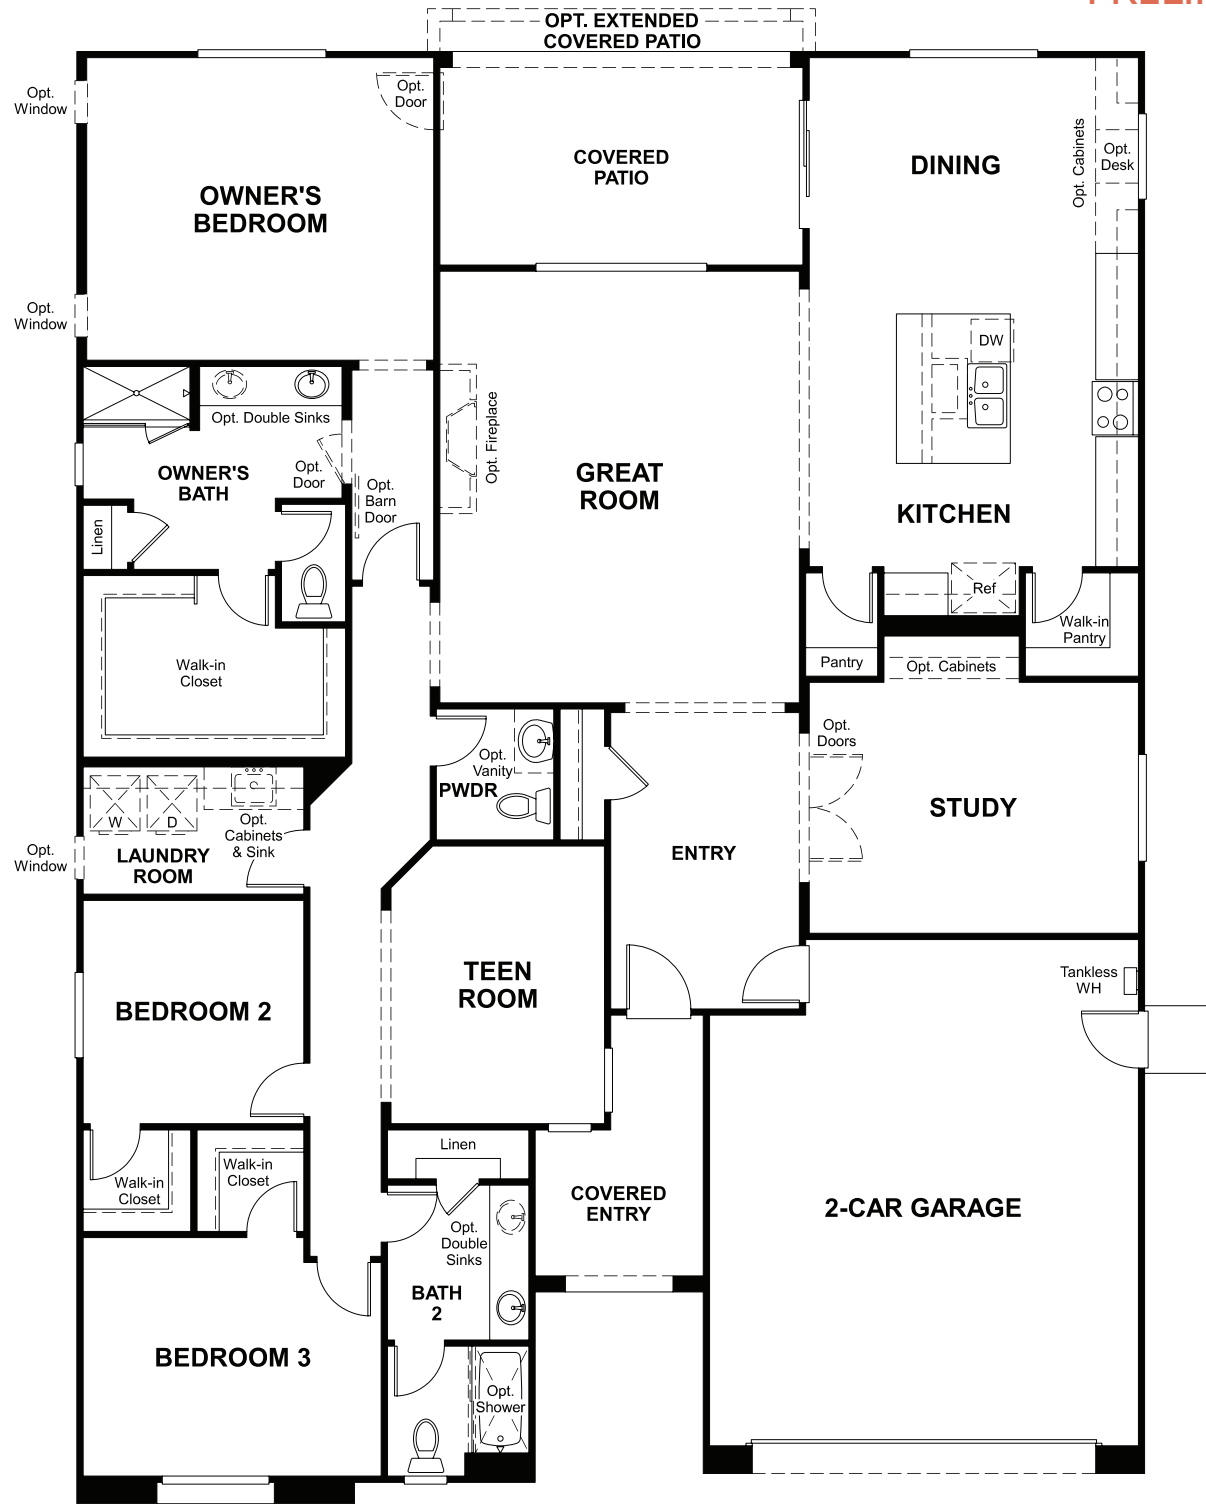

\*\*\*Typical resale home is based on the U.S. Department of Energy definition with a HERS index of 130.

^RESNET has developed the HERS index to indicate the comparative efficiencies of homes. It is no guarantee that energy efficiencies will be achieved.

**What's a HERS® index?** HERS stands for Home Energy Rating System, a system created by RESNET® to measure home energy efficiency. ^  
A projected HERS index or rating is a computer simulation performed prior to construction by a third-party HERS rater using RESNET-accredited rating software, rated feature and specification data derived from home plans, features and specifications, and other data selected or assumed by the rater. The projected HERS index is approximate and is subject to change without notice. Actual results will vary.
