## ABOUT THE JACKSON

The versatile Jackson floor plan showcases a range of popular features and personalization options. The main level offers an open kitchen, nook and family room. Make it your own with optional gourmet features, a sunroom or a conservatory. You'll also find formal living and dining rooms, a study, a powder room and a mudroom. Upstairs, discover a generous master suite with walk-in closet and private bathroom; choose the deluxe bathroom option for a lavish corner tub. The second floor also boasts a laundry, bathroom and three additional bedrooms, with the option for another bedroom and bathroom in lieu of the sitting room and tech center. Additional options include a finished basement, family room fireplace and more!

\*This information is presented for education purposes only. The HERS index for a confirmed rating will be determined by a third-party HERS rater based on data gathered from on-site observations and, if required, testing of rated features for a home as featured, optioned, located, oriented and/or built.

+Standard new home is based on the RESNET® Reference Home definition with a HERS® index of 100 (based on the 2006 International Energy Conservation Code).

++Typical resale home is based on the U.S. Department of Energy definition with a HERS® index of 130.

^RESNET® has developed the HERS® index to indicate the comparative efficiencies of homes. It is no guarantee that energy efficiencies will be achieved.

Floor plans and renderings are conceptual drawings and may vary from actual plans and homes as built. Options and features may not be available on all homes and are subject to change without notice. Actual homes may vary from photos and/or drawings which show upgraded landscaping and may not represent the lowest-priced homes in the community. Features may include optional upgrades and may not be available on all homes. Square footage numbers are approximate and are subject to change without notice. **What's a HERS® Index?** HERS stands for Home Energy Rating System, a system created by RESNET® to measure home energy efficiency. A Projected HERS index or rating is a computer simulation performed prior to construction by a third-party HERS rater using RESNET-accredited rating software, rated feature and specification data derived from home plans, features and specifications, and other data selected or assumed by the rater. The projected HERS index is approximate and is subject to change without notice. Actual results will vary.
