Approx. square feet: 2,900

Stories: 2
Bedrooms: 4
Garage: 2- to 3-car
Plan Number: W603

The Bradford plan boasts an open main-floor layout: a generous dining room, an inviting great room with a fireplace and a well-appointed kitchen with an immense center island, walk-in pantry and optional multi-slide doors leading onto a covered patio. You'll also appreciate a quiet study, which can be optioned as a fifth bedroom. Upstairs, you'll find a convenient laundry, a roomy loft and a lavish master suite with dual walk-in closets and an optional deluxe bath. Personalize this plan with a gourmet or chef's kitchen, deluxe master bath and finished basement with additional bath and spacious rec room!

THIS PLAN'S PROJECTED = 54*
HERS® INDEX = 54
Projected Rating Based on Plans – Field Confirmation Required

How does this floor plan rate?

Take a look: **I00** = Standard new home* **I30** = Typical resale home**

The lower the number, the better! Refer to the RESNET® HERS index brochure or go to **www.RESNET.us** for details.

Floor Plan Second Floor

What's a HERS® Index? HERS stands for Home Energy Rating System, a system created by RESNET® to measure home energy efficiency.^
A Projected HERS index or rating is a computer simulation performed prior to construction by a third-party HERS rater using RESNET-accredited rating software, rated feature and specification data derived from home plans, features and specifications, and other data selected or assumed by the rater. The projected HERS index is approximate and is subject to change without notice. Actual results will vary.

^{*}This information is presented for education purposes only. The HERS index for a confirmed rating will be determined by a third-party HERS rater based on data gathered from on-site observations and, if required, testing of rated features for a home as featured, optioned, located, oriented and/or built.

⁺Standard new home is based on the RESNET® Reference Home definition with a HERS® index of 100 (based on the 2006 International Energy Conservation Code).

⁺⁺Typical resale home is based on the NLSNET® Reference Floring definition with a HERS® index of 130.

[^]RESNET® has developed the HERS® index to indicate the comparative efficiencies of homes. It is no guarantee that energy efficiencies will be achieved.
