ABOUT THE DARCY

The handsome Darcy floor plan offers a wealth of gracious spaces for relaxing, working and entertaining. Just off the entry, you'll find a study with optional double doors and a flex room that can be built as a dining room with a butler's pantry. Toward the back of the home, there's a wide open great room, nook and kitchen, complete with center island, walk-in pantry and mudroom access to the garage. A convenient loft, laundry and luxurious master suite are located upstairs, along with two additional bedrooms and a hall bath. Personalize with a sunroom, deluxe bath options and a covered patio.

*This information is presented for education purposes only. The HERS index for a confirmed rating will be determined by a third-party HERS rater based on data gathered from on-site observations and, if required, testing of rated features for a home as featured, optioned, located, oriented and/or built.

+Standard new home is based on the RESNET® Reference Home definition with a HERS® index of 100 (based on the 2006 International Energy Conservation Code).

++Typical resale home is based on the U.S. Department of Energy definition with a HERS® index of 130.

^RESNET® has developed the HERS® index to indicate the comparative efficiencies of homes. It is no guarantee that energy efficiencies will be achieved.

Floor plans and renderings are conceptual drawings and may vary from actual plans and homes as built. Options and features may not be available on all homes and are subject to change without notice. Actual homes may vary from photos and/or drawings which show upgraded landscaping and may not represent the lowest-priced homes in the community. Features may include optional upgrades and may not be available on all homes. Square footage numbers are approximate and are subject to change without notice.  The lower number, the better! Refer to the RESNET® HERS index brochure or go to www.RESNET.us and www.HERSindex.com

What's a HERS® Index? HERS stands for Home Energy Rating System, a system created by RESNET® to measure home energy efficiency.[^]
 A Projected HERS index or rating is a computer simulation performed prior to construction by a third-party HERS rater using RESNET-accredited rating software, rated feature and specification data derived from home plans, features and specifications, and other data selected or assumed by the rater. The projected HERS index is approximate and is subject to change without notice. Actual results will vary.
