ABOUT THE CORONADO

The main floor of the Coronado floor plan provides plenty of space for relaxing, cooking, and hosting. Just off the two-story entry, you'll find a convenient bedroom and bathroom. At the back of the home, enjoy an impressive great room and a well-appointed kitchen offering a center island, a spacious walk-in pantry, and an adjacent dining area. A lavish primary suite is located upstairs and showcases an expansive walk-in closet and a private bath with double sinks. You'll also appreciate two secondary bedrooms and bathrooms, a loft, and a central laundry on this level. Personalization options include gourmet kitchen features, a great room fireplace, an extra bedroom in lieu of the loft, and/or a deluxe primary bathroom.

*This information is presented for educational purposes only. The HERS® index for a confirmed rating will be determined by a third-party HERS rater based on data gathered from on-site observations and, if required, testing of rated features for a home as featured, optioned, located, oriented and/or built.

**Standard new home is based on the RESNET® Reference Home definition with a HERS index of 100 (based on the 2006 International Energy Conservation Code).

***Typical resale home is based on the U.S. Department of Energy definition with a HERS index of 130.

^RESNET has developed the HERS index to indicate the comparative efficiencies of homes. It is no guarantee that energy efficiencies will be achieved.

Floor plans and renderings are conceptual drawings and may vary from actual plans and homes as built. Options and features may not be available on all homes and are subject to change without notice. Actual homes may vary from photos and/or drawings which show upgraded landscaping and may not represent the lowest-priced homes in the community. Features may include optional upgrades and may not be available on all homes. Prices, specifications and availability are subject to change without notice. What's a HERS® index? HERS stands for Home Energy Rating System, a system created by RESNET® to measure home energy efficiency.^
A projected HERS index or rating is a computer simulation performed prior to construction by a third-party HERS rater using RESNET-accredited rating software, rated feature and specification data derived from home plans, features and specifications, and other data selected or assumed by the rater. The projected HERS index is approximate and is subject to change without notice. Actual results will vary.
