ABOUT THE SHANIA

The Shania floor plan offers versatile layout options. In lieu of the study, you could opt for a dining room with a butler's pantry, providing direct access to a gourmet kitchen with a walk-in pantry, breakfast bar island, adjacent covered patio and full view of the great room. For an even more dynamic entertaining environment, add a great room fireplace and extended covered patio. A convenient downstairs bedroom and full bath round out the main floor. Upstairs, a loft can also be optioned as a club room with a wet bar, or as an extra bedroom with a full bath. Providing a lavish retreat, the master suite comes with a sprawling walk-in closet, dual vanities, a separate tub and shower, and an optional private deck.

*This information is presented for education purposes only. The HERS index for a confirmed rating will be determined by a third-party HERS rater based on data gathered from on-site observations and, if required, testing of rated features for a home as featured, optioned, located, oriented and/or built.

+Standard new home is based on the RESNET® Reference Home definition with a HERS® index of 100 (based on the 2006 International Energy Conservation Code).

++Typical resale home is based on the U.S. Department of Energy definition with a HERS® index of 130.

^RESNET® has developed the HERS® index to indicate the comparative efficiencies of homes. It is no guarantee that energy efficiencies will be achieved.

Floor plans and renderings are conceptual drawings and may vary from actual plans and homes as built. Options and features may not be available on all homes and are subject to change without notice. Actual homes may vary from photos and/or drawings which show upgraded landscaping and may not represent the lowest-priced homes in the community. Features may include optional upgrades and may not be available on all homes. What's a HERS® Index? HERS stands for Home Energy Rating System, a system created by RESNET® to measure home energy efficiency. A Projected HERS index or rating is a computer simulation performed prior to construction by a third-party HERS rater using RESNET-accredited rating software, rated feature and specification data derived from home plans, features and specifications, and other data selected or assumed by the rater. The projected HERS index is approximate and is subject to change without notice. Actual results will vary.
