ABOUT THE HEMINGWAY

The main floor of the Hemingway features a versatile flex room, an inviting great room with an optional fireplace, and a large kitchen with a center island. A formal dining room with an optional vaulted or beamed ceiling offers access to an optional covered patio. Upstairs, you'll find a convenient laundry room and a lavish owner's suite with a generous walk-in closet and an attached bath. A spacious loft can be optioned as an extra bedroom. Additional ways to personalize include a curved island and deluxe or gourmet features in the kitchen, a main-floor bath in lieu of the powder room and a spa-like walk-in shower in the owner's bath.

*This information is presented for educational purposes only. The HERS® index for a confirmed rating will be determined by a third-party HERS rater based on data gathered from on-site observations and, if required, testing of rated features for a home as featured, optioned, located, oriented and/or built.

**Standard new home is based on the RESNET® Reference Home definition with a HERS index of 100 (based on the 2006 International Energy Conservation Code).

***Typical resale home is based on the U.S. Department of Energy definition with a HERS index of 130.

^RESNET has developed the HERS index to indicate the comparative efficiencies of homes. It is no guarantee that energy efficiencies will be achieved.

What's a HERS® index? HERS stands for Home Energy Rating System, a system created by RESNET® to measure home energy efficiency.^
A projected HERS index or rating is a computer simulation performed prior to construction by a third-party HERS rater using RESNET-accredited rating software, rated feature and specification data derived from home plans, features and specifications, and other data selected or assumed by the rater. The projected HERS index is approximate and is subject to change without notice. Actual results will vary.
