ABOUT THE DILLON II

The Dillon II floor plan centers around an open layout on the main floor, featuring a great room, a dining nook and a kitchen with a walk-in pantry and a center island. A private study and a formal dining room round out the main floor. You'll find the master suite upstairs, complete with a walk-in closet and an attached bath with dual sinks and a separate shower and soaking tub. Three additional bedrooms and two bathrooms complete the second floor. Includes a 3-car garage! A variety of personalization options include a main-floor morning room and covered patio, a bedroom in place of the private study, gourmet features in the kitchen and a walk-in shower at the master bath.

*This information is presented for education purposes only. The HERS index for a confirmed rating will be determined by a third-party HERS rater based on data gathered from on-site observations and, if required, testing of rated features for a home as featured, optioned, located, oriented and/or built.

+Standard new home is based on the RESNET® Reference Home definition with a HERS® index of 100 (based on the 2006 International Energy Conservation Code).

++Typical resale home is based on the U.S. Department of Energy definition with a HERS® index of 130.

^RESNET® has developed the HERS® index to indicate the comparative efficiencies of homes. It is no guarantee that energy efficiencies will be achieved.

Floor plans and renderings are conceptual drawings and may vary from actual plans and homes as built. Options and features may not be available on all homes and are subject to change without notice. Actual homes may vary from photos and/or drawings which show upgraded landscaping and may not represent the lowest-priced homes in the community. Features may include optional upgrades and may not be available on all homes. What's a HERS® Index? HERS stands for Home Energy Rating System, a system created by RESNET® to measure home energy efficiency.^

A Projected HERS index or rating is a computer simulation performed prior to construction by a third-party HERS rater using RESNET-accredited rating software, rated feature and specification data derived from home plans, features and specifications, and other data selected or assumed by the rater. The projected HERS index is approximate and is subject to change without notice. Actual results will vary.
