ABOUT THE SUNSTONE

The ranch-style Sunstone home showcases an airy, open layout, centered around a spacious great room and large kitchen. The luxurious owner’s suite features two walk-in closets—one of which can be optioned as a tech center—as well as an attached bathroom with an optional barn door. A covered patio is the perfect place to relax, and the third bedroom can be optioned as a teen room for extra space. Further personalize with an optional extended garage for storage, and a fifth bedroom in lieu of the study.

*This information is presented for educational purposes only. The HERS® index for a confirmed rating will be determined by a third-party HERS rater based on data gathered from on-site observations and, if required, testing of rated features for a home as featured, optioned, located, oriented and/or built.

**Standard new home is based on the RESNET® Reference Home definition with a HERS index of 100 (based on the 2006 International Energy Conservation Code).

***Typical resale home is based on the U.S. Department of Energy definition with a HERS index of 130.

^RESNET has developed the HERS index to indicate the comparative efficiencies of homes. It is no guarantee that energy efficiencies will be achieved.

What's a HERS® index? HERS stands for Home Energy Rating System, a system created by RESNET® to measure home energy efficiency.^
A projected HERS index or rating is a computer simulation performed prior to construction by a third-party HERS rater using RESNET-accredited rating software, rated feature and specification data derived from home plans, features and specifications, and other data selected or assumed by the rater. The projected HERS index is approximate and is subject to change without notice. Actual results will vary.
