ABOUT THE AMETHYST

The ranch-style Amethyst plan greets guests with a charming covered entry. Inside, you'll find a quiet study and an open great room that flows into an inviting kitchen featuring a center island and generous pantry. A large primary suite boasts an immense walk-in closet and attached bath with optional double sinks, and is separated from a secondary bedroom and bathroom for privacy. A convenient laundry room is also included. Make this home your own with exciting options like a third bedroom in lieu of the study and a covered patio!

*This information is presented for education purposes only. The HERS index for a confirmed rating will be determined by a third-party HERS rater based on data gathered from on-site observations and, if required, testing of rated features for a home as featured, optioned, located, oriented and/or built.

+Standard new home is based on the RESNET® Reference Home definition with a HERS® index of 100 (based on the 2006 International Energy Conservation Code).

++Typical resale home is based on the U.S. Department of Energy definition with a HERS® index of 130.

^RESNET® has developed the HERS® index to indicate the comparative efficiencies of homes. It is no guarantee that energy efficiencies will be achieved.

How does this floor plan rate?

Take a look: **100** = standard new home" **130** = typical resale home"" The lower the number, the better! Refer to the RESNET® HERS index brochure or go to **RESNET.us** and **HERSindex.com** What's a HERS® index? HERS stands for Home Energy Rating System, a system created by RESNET® to measure home energy efficiency.^ A projected HERS index or rating is a computer simulation performed prior to construction by a third-party HERS rater using RESNET-accredited rating software, rated feature and specification data derived from home plans, features and specifications, and other data selected or assumed by the rater. The projected HERS index is approximate and is subject to change without notice. Actual results will vary.
