## ABOUT THE AUGUSTA

The ranch-style Augusta offers thoughtfully designed living space with a range of personalization possibilities. The foyer leads to an open floor plan with a kitchen, a great room, a dining room and a covered patio. Looking for extra space for entertaining? Add a club room and an extended covered patio! You'll find a spacious owner's suite next to the dining room, showcasing a walk-in closet and an attached bath that can be personalized with three deluxe options. This plan also offers two bedrooms and a bath; for more space, choose another bedroom in lieu of garage storage. Additional options include gourmet features in the kitchen, alternate kitchen layout, a corner-meet door in the great room, multi slide and center meet door options and a study instead of third bathroom.

\*This information is presented for educational purposes only. The HERS® index for a confirmed rating will be determined by a third-party HERS rater based on data gathered from on-site observations and, if required, testing of rated features for a home as featured, optioned, located, oriented and/or built.

\*\*Standard new home is based on the RESNET® Reference Home definition with a HERS index of 100 (based on the 2006 International Energy Conservation Code).

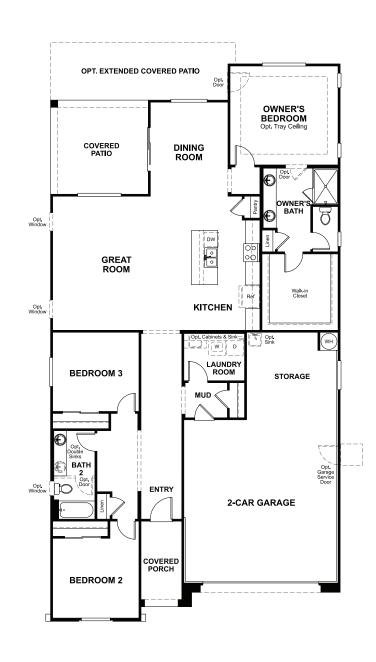

\*\*\*Typical resale home is based on the U.S. Department of Energy definition with a HERS index of 130.

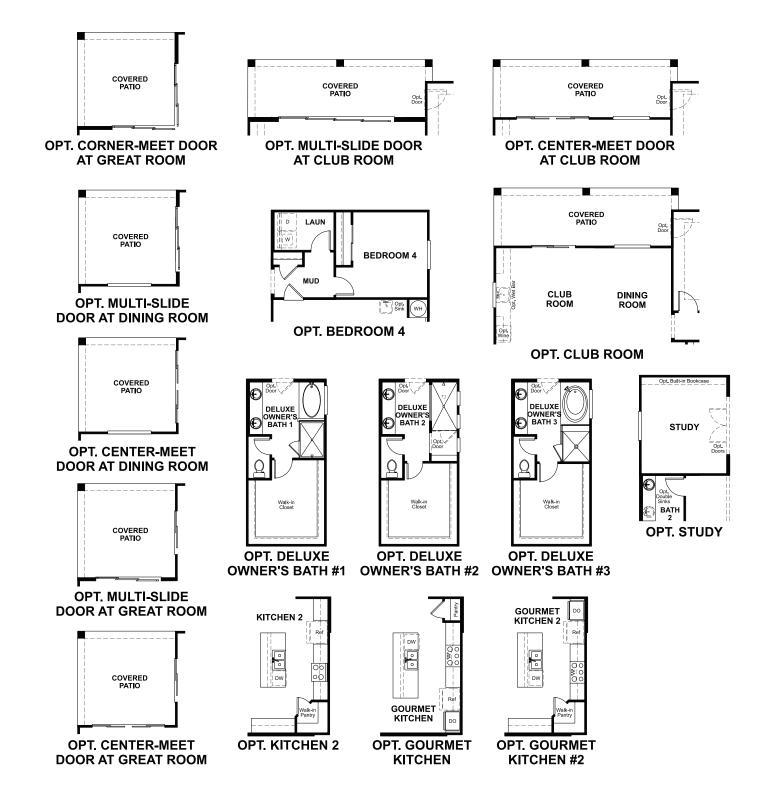

^RESNET has developed the HERS index to indicate the comparative efficiencies of homes. It is no guarantee that energy efficiencies will be achieved.

How does this floor plan rate?

Take a look: **100** = standard new home\*\* **130** = typical resale home\*\*\* The lower the number, the better! Refer to the RESNET® HERS index brochure or go to **RESNET.us** and **HERSindex.com** 

What's a HERS® index? HERS stands for Home Energy Rating System, a system created by RESNET® to measure home energy efficiency.^ A projected HERS index or rating is a computer simulation performed prior to construction by a third-party HERS rater using RESNET-accredited rating software, rated feature and specification data derived from home plans, features and specifications, and other data selected or assumed by the rater. The projected HERS index is approximate and is subject to change without notice. Actual results will vary.
