ABOUT THE LAPIS

An inviting open layout is at the heart of the Lapis plan, showcasing an airy great room, a dining area and a well-appointed corner kitchen with a center island, a walk-in pantry and abundant counter space. A versatile flex room can be transformed into a home office, exercise room and more. There are three spacious bedrooms upstairs, including an elegant owner's suite with a walk-in closet and an attached bath. You'll also find a loft space that can be optioned as a fourth bedroom. Additional options include a study in lieu of the flex room, added windows for even more light, and two covered patio layouts.
