ABOUT THE GLENDA

The main floor of the thoughtfully designed Glenda plan includes an inviting porch, an impressive dining room, a generous great room, a spacious nook and a charming courtyard. The well-appointed kitchen offers a roomy pantry and a center island. A powder room with an optional vanity and a 3-car garage round out this level. The second floor features a convenient laundry, as well as three bedrooms and a covered deck. The elegant primary suite showcases a large walk-in closet and a private bath. A tech center can also be added to this level.

*This information is presented for educational purposes only. The HERS® index for a confirmed rating will be determined by a third-party HERS rater based on data gathered from on-site observations and, if required, testing of rated features for a home as featured, optioned, located, oriented and/or built.

** Standard new home is based on the RESNET® Reference Home definition with a HERS index of 100 (based on the 2006 International Energy Conservation Code).

*** Typical resale home is based on the U.S. Department of Energy definition with a HERS index of 130.

^RESNET has developed the HERS index to indicate the comparative efficiencies of homes. It is no guarantee that energy efficiencies will be achieved.

What's a HERS® index? HERS stands for Home Energy Rating System, a system created by RESNET® to measure home energy efficiency. ^
 A projected HERS index or rating is a computer simulation performed prior to construction by a third-party HERS rater using RESNET-accredited rating software, rated feature and specification data derived from home plans, features and specifications, and other data selected or assumed by the rater. The projected HERS index is approximate and is subject to change without notice. Actual results will vary.
