ABOUT THE DEACON

An attached RV garage is only the beginning of the Deacon's exciting features! This plan offers an inviting open layout showcasing a gourmet kitchen with a walk-in pantry and a center island, a great room and a dining room. The owner's suite is adjacent, boasting a private bath and a walk-in closet. Two additional bedrooms flank a bath, and a versatile flex room is steps away. The home also includes a mudroom, laundry, covered patio and tandem garage. Personalize this plan by adding a bedroom in lieu of the flex room and choosing between two owner's bath options!

*This information is presented for educational purposes only. The HERS® index for a confirmed rating will be determined by a third-party HERS rater based on data gathered from on-site observations and, if required, testing of rated features for a home as featured, optioned, located, oriented and/or built.

**Standard new home is based on the RESNET® Reference Home definition with a HERS index of 100 (based on the 2006 International Energy Conservation Code).

***Typical resale home is based on the U.S. Department of Energy definition with a HERS index of 130.

^RESNET has developed the HERS index to indicate the comparative efficiencies of homes. It is no guarantee that energy efficiencies will be achieved.

What's a HERS® index? HERS stands for Home Energy Rating System, a system created by RESNET® to measure home energy efficiency.^ A projected HERS index or rating is a computer simulation performed prior to construction by a third-party HERS rater using RESNET-accredited rating software, rated feature and specification data derived from home plans, features and specifications, and other data selected or assumed by the rater. The projected HERS index is approximate and is subject to change without notice. Actual results will vary.
