ABOUT THE DANIELA

This two-story plan is designed to delight - from the intimate study with optional built-in bookcase to the convenient upstairs laundry room with optional cabinets, just outside the fourth bedroom. On the main floor, a formal living and dining room look over the front porch and yard. Upstairs, a large owner's bedroom with a walk-in closet is ready to personalize. Other options include a gourmet kitchen, sunroom, and expansive covered patio.

*This information is presented for educational purposes only. The HERS® index for a confirmed rating will be determined by a third-party HERS rater based on data gathered from on-site observations and, if required, testing of rated features for a home as featured, optioned, located, oriented and/or built.

**Standard new home is based on the RESNET® Reference Home definition with a HERS index of 100 (based on the 2006 International Energy Conservation Code).

***Typical resale home is based on the U.S. Department of Energy definition with a HERS index of 130.w

^RESNET has developed the HERS index to indicate the comparative efficiencies of homes. It is no guarantee that energy efficiencies will be achieved.

Floor plans and renderings are conceptual drawings and may vary from actual plans and homes as built. Actual homes may vary from photos and/or drawings, which show upgraded landscaping and may not represent the lowest-priced homes in the community. Options and features may not be available on all homes and are subject to change without notice. Square footage and plan dimensions are approximate and may show approximate total available footage with finished and unfinished footages listed separately. Unfinished basement areas below grade may vary in value from finished above-grade areas. How does this floor plan rate?
Take a look: **100** = standard new home™ **130** = typical resale home™
The lower the number, the better! Refer to the RESNET® HERS index brochure or go to RESNET.us and HERSindex.com

What's a HERS® index? HERS stands for Home Energy Rating System, a system created by RESNET® to measure home energy efficiency.^^
A projected HERS index or rating is a computer simulation performed prior to construction by a third-party HERS rater using RESNET-accredited rating software, rated feature and specification data derived from home plans, features and specifications, and other data selected or assumed by the rater. The projected HERS index is approximate and is subject to change without notice. Actual results will vary.
