ABOUT THE POMONA

Ease and elegant design blend beautifully in the single-story Pomona plan. An inviting great room anchors the home's open layout, and an adjacent dining nook opens to a large kitchen with a walk-in pantry and central island. An impressive primary suite boasts a walk-in closet and a private bath with three layout options, including a walk-in shower. Three additional bedrooms, a spacious study and a laundry round out the floor plan, which includes a covered patio, a 2-car front-entry garage and a 1-car side-entry garage. Additional personalization options include a gourmet kitchen, a formal dining room in lieu of the study and a guest suite with up to two bedrooms and a living room.

*This information is presented for educational purposes only. The HERS® index for a confirmed rating will be determined by a third-party HERS rater based on data gathered from on-site observations and, if required, testing of rated features for a home as featured, optioned, located, oriented and/or built.

**Standard new home is based on the RESNET® Reference Home definition with a HERS index of 100 (based on the 2006 International Energy Conservation Code).

***Typical resale home is based on the U.S. Department of Energy definition with a HERS index of 130.

^RESNET has developed the HERS index to indicate the comparative efficiencies of homes. It is no guarantee that energy efficiencies will be achieved.

What's a HERS® index? HERS stands for Home Energy Rating System, a system created by RESNET® to measure home energy efficiency.^
A projected HERS index or rating is a computer simulation performed prior to construction by a third-party HERS rater using RESNET-accredited rating software, rated feature and specification data derived from home plans, features and specifications, and other data selected or assumed by the rater. The projected HERS index is approximate and is subject to change without notice. Actual results will vary.
