ABOUT THE THOMAS

Two garages flank the Thomas plan's attractive covered porch. The entry area just inside leads to a study, the stairs and the main floor's generous entertaining spaces with an open kitchen, nook and great room. Upstairs you'll find three inviting bedrooms with walk-in closets, a convenient laundry and a large loft. Options include a dining room or bedroom in place of the study on the first floor; a bedroom and bath or a study with private exterior entry from the porch instead of the second garage, an additional bedroom and bath in lieu of the loft, upgrade to a gourmet kitchen and butler's pantry and an outdoor covered patio.

\*This information is presented for educational purposes only. The HERS® index for a confirmed rating will be determined by a third-party HERS rater based on data gathered from on-site observations and, if required, testing of rated features for a home as featured, optioned, located, oriented and/or built.

\*\*Standard new home is based on the RESNET® Reference Home definition with a HERS index of 100 (based on the 2006 International Energy Conservation Code).

\*\*\*Typical resale home is based on the U.S. Department of Energy definition with a HERS index of 130.

^RESNET has developed the HERS index to indicate the comparative efficiencies of homes. It is no guarantee that energy efficiencies will be achieved.

**What's a HERS® index?** HERS stands for Home Energy Rating System, a system created by RESNET® to measure home energy efficiency.^  
A projected HERS index or rating is a computer simulation performed prior to construction by a third-party HERS rater using RESNET-accredited rating software, rated feature and specification data derived from home plans, features and specifications, and other data selected or assumed by the rater. The projected HERS index is approximate and is subject to change without notice. Actual results will vary.
