ABOUT THE ELDERBERRY

The main floor of the must-see Elderberry plan boasts ample space for entertaining, including an expansive great room and a well-appointed kitchen with a center island and a large walk-in pantry. An impressive primary suite, located just off the great room, showcases an immense walk-in closet and a private bath. Upstairs, you'll find two secondary bedrooms, a full shared bath and an inviting loft with a storage closet. Additional highlights include a convenient powder room, a quiet study, and a main-floor laundry. Some homes will be built with a 3-car garage and covered patio off the dining area. The designer curated finishes are sure to impress!

*This information is presented for educational purposes only. The HERS® index for a confirmed rating will be determined by a third-party HERS rater based on data gathered from on-site observations and, if required, testing of rated features for a home as featured, optioned, located, oriented and/or built.

**Standard new home is based on the RESNET® Reference Home definition with a HERS index of 100 (based on the 2006 International Energy Conservation Code).

***Typical resale home is based on the U.S. Department of Energy definition with a HERS index of 130.

^RESNET has developed the HERS index to indicate the comparative efficiencies of homes. It is no guarantee that energy efficiencies will be achieved.

What's a HERS® index? HERS stands for Home Energy Rating System, a system created by RESNET® to measure home energy efficiency.^
A projected HERS index or rating is a computer simulation performed prior to construction by a third-party HERS rater using RESNET-accredited rating software, rated feature and specification data derived from home plans, features and specifications, and other data selected or assumed by the rater. The projected HERS index is approximate and is subject to change without notice. Actual results will vary.
